

# Mobile GPS Antenna

## Model: MA-55/MA-35

Low-cost antenna module for mobile applications

©2008 San Jose Technology, Inc. All specifications subject to change without notice.

The MA-55/MA-35 is the integration of a high performance GPS patch antenna and a state-of-the-art low noise amplifier into a very low profile/ extremely compact/ fully waterproof enclosure which, when connected to a GPS receiver with 5V DC antenna power, provides excellent signal amplification and out-band filtering & rejection.

### Specifications:
